MEDICAL EMERGENCIES

21st March 2025

Program Report

The Department of Oral & Maxillofacial Surgery organized an Add-On Program (6 hours duration) on "Medical Emergencies" under the Capability Enhancement and Development Scheme on 21st March, 2025 at Lecture Hall-1, SDC&H, Lucknow, 01:00 P.M. onwards to enhance emergency management skills among students and faculty.

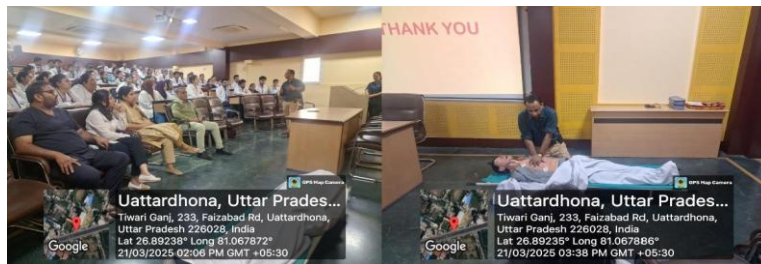

Event Highlights:

External Resources Person : Dr. Vishal Arora Prof. & H.O.D (Dept. of Anesthesiology, Saraswati Medical College, Unnao)

The total no. of participants who attended this workshop were 100. The target audience were BDS final year students. The session covered essential topics, including Basic Life Support (BLS) & CPR, focusing on emergency recognition, CPR techniques, and AED use. Syncope & Hypoglycaemia were discussed with emphasis on symptoms, immediate management, and glucose administration. Cardiac Emergencies such as angina and myocardial infarction were addressed along with the administration of nitro-glycerine and aspirin.

Anaphylaxis & Allergic Reactions were explained with identification techniques and the administration of epinephrine. Lastly, Airway Obstruction & Aspiration was covered, highlighting choking management and the Heimlich maneuver

The program saw active participation. Hands-on training and Q&A sessions enhanced learning. Participants appreciated the session and requested more such training in the future.

PROF. & HEAD
Dr. Hemant Mehra
